

How it WORKS !

<https://www.panthera.zone>

Panthera© is an Innovative Mathematic Algorithm Full Powered by our Technical Engineers at Trexko© International, located now to our New 2021 - Headquarters - at Sofia Tech Park (Bulgaria - BG). First Algorithm Version Released March 2019 in Dallas (Texas - TX - U.S.A. - United States of America).

The Vision and Strategy behind Panthera© is Generate a Real Monthly Revenue of +8% from your Investments, not less then 2000,00 USD. For example : your money of 2000,00 USD will be *blocked as contract for 24 months* and this will produce to your Wallet a *Comprehensive Sum of 160,00 USD Monthly*, every 30 days, month by month, until the end of the Contract. We may Guarantee +8% of earning for this time (24 months). Our Algorithm Panthera© works as a *Balancer* onto Crypto Marketplaces (Bitcoin, Ethereum, Litecoin, Cardano, Polkadot, Monero, Binance, Tether and many more Crypto Currencies ...) and Maximize your Profits deriving your Income from the Invested Capital through our Algorithm that Buys and Sells onto the Marketplace at the fraction of a second : 24 hours a day, 7 days a week.

This cyclical technical operation allows Panthera© to constantly generate +8% of Earnings as Interest on your Invested Amount of Money, constantly Managed and Controlled by Algorithm. A Blockchain warning system Preserves your Invested Amount for the entire period of time relating to the Investment contract from any sudden Drop on the Market to the downside of the Value of any Cryptocurrency.
